

Since 1960 the Illawarra Radiology Group has provided a comprehensive radiology service to referring medical practitioners, clinics and hospitals.

Illawarra Radiology Group has been a leader in bringing new technology to the Illawarra and continues to use state of the art equipment designed to provide the most accurate, most efficient radiology diagnosis possible.

Why should I use IRG?

Quality

Illawarra Radiology Group has a radiologist present at most sites throughout the day. This guarantees that nearly all examinations are guided by these specialists and individually tailored to provide the highest quality radiography possible. IRG uses a rigorous quality control programme to ensure accuracy and quality.

Convenience

Illawarra Radiology Group has 4 comprehensive radiology practices conveniently located throughout the Illawarra (see the back of the brochure for services performed at each site) as well as an extensive courier service.

Cutting Edge Technology

Illawarra Radiology Group has the only rebatable MRI in the Illawarra at our Crown Street, Wollongong site. IRG has 3 four slice CT scanners and ultrasound machines with high frequency probes for musculoskeletal imaging and vascular ultrasounds..

Fast and Efficient Service

Illawarra Radiology Group places in high priority on the prompt delivery of results. Patients may choose to take their reported films with them, or have them delivered to the referring doctor by our comprehensive courier system. Results for complex studies such as CT, MRI and mammography are usually delivered to allow time for accurate assessment.

Ownership

Illawarra Radiology Group is owned by Sonic Health – an Australian Company listed on the Australian Stock Exchange.
